Hi Jeremy,

I am pleased with the plan to move drug cases to West Roxbury District Court. It is so much more convenient for our chemists. The ADAs there are telling us that they don't have a lot of experience with drug cases and would appreciate some guidance. The attached document is an update of the list of questions you supplied to us earlier this year. I am hoping you are able to share this with the ADAs in West Roxbury as this will result in more consistent direct testimony in drug cases.

Thank you, Julie Nassif
